

COMRADE OF LABOUR

Roy Neo Lai Heng

2nd Assistant General Secretary

United Workers of Electronics & Electrical Industries (UWEEI)

Nominated by the United Workers of Electronics & Electrical Industries.

Roy Neo Lai Heng has been a dedicated union leader since 2015 and the Branch Chairman for the last six years. He has proved reliable and influential, encouraging eight fellow leaders to join the Kulicke & Soffa branch committee to serve its members better.

He has displayed great enthusiasm and strong support for NTUC's initiatives by volunteering at the #EveryWorkerMatters Conversations.

During the recent downturn faced by the electronics sector, Brother Roy played an essential role in keeping the morale up for affected and existing workers during restructuring exercises. He ensured that he was present as the Branch Chairman for all exercises, providing the necessary advice and emotional support for affected members.

As someone who strives for continuous personal development, he always encourages fellow leaders and members to upskill and reskill to meet future economic demands.

Brother Roy has also served on several committees, including the NTUC Industrial Relations Committee, Electronics, Marine & Engineering Cluster, and the Young NTUC Committee.
