

MODEL WORKER

Ng Siew Ying

Senior Group Leader

Leica Geosystems Technologies Pte Ltd

Nominated by the Advanced Manufacturing Employees' Union.

Ng Siew Ying, a Senior Group Leader and union leader for the past decade, consistently demonstrates exceptional dedication and proficiency.

Sister Siew Ying actively promotes upskilling and reskilling among workers, facilitating cross-deployment to meet business needs. With extensive experience, she mentors potential leaders, fosters teamwork, and drives operational excellence. Her expertise in suboperation has led to significant cost savings and productivity gains through initiatives like the "Semi-Auto Key Display Unit (KDU) Assembly" continuous improvement project.

As the union Branch Chairman of Leica Geosystems Technologies, Sister Siew Ying excels in interpersonal communication and builds trust and support among colleagues. Known for her compassionate leadership, she goes above and beyond to assist co-workers, as demonstrated when she promptly responded to a colleague's medical emergency, coordinating support and garnering the appropriate assistance. She is a role model for compassion, innovative problem-solving, and a consistent work ethic.
