

MODEL WORKER

Juraimah Jumadi

Senior Admin Executive

TOA Corporation

Nominated by the Building Construction And Timber Industries Employees' Union

Juraimah Jumadi has been working at TOA Corporation for the past 18 years. She proactively increases her productivity at work by ensuring she remains savvy in the most functional IT software, being certified in 32 IT courses offered by ITE and NTUC LearningHub. These certifications include accounts, design software like AutoCAD, and Microsoft Office training.

She went above and beyond to attain a Specialist Diploma in Maritime Superintendency to aid her course of work. On top of her administration duties, Sister Juraimah strongly advocates workplace safety and health (WSH) as the safe management officer at TOA Corporation. She has taken the Fire Safety Manager Course at Singapore Polytechnic and is certified by Eversafe Academy to Supervise Work in Confined Space Operations.

Beyond physical safety and health, Sister Juraimah ensures that she is equipped to support her co-workers' mental well-being through the WSQ-Certified Training in Peer-to-Peer Mental Well-Being Support @ Work. In light of the high workplace fatalities in the construction sector, Sister Juraimah has recently attended the WSH Coordinator Refresher Training by SCAL Academy to ensure that her WSH knowledge is current and that she can continue to keep her colleagues safe.

Sister Juraimah has supported the Labour Movement as an active union leader for the last decade. As a branch chairman, she is always available to assist workers with grievances and recruit members to extend the Building Construction And Timber Industries Employees' Union's reach to more workers. While she has a strong foundation in industrial relations from the multiple courses she has attended, she is also a strong advocate for championing women in the workforce. She is the pioneer generation graduate of the NTUC Union Leadership Programme for Women. Since then, she has continued to expand her knowledge in courses related to women in the workplace to transform her workplace into a more equal one.
