

COMRADE OF LABOUR

Rayjina Barween Md Yusoff

Assistant General Treasurer
Keppel FELS Employees' Union

Nominated by the Keppel FELS Employees' Union

Rayjina Barween Md Yusoff knows how to look at various issues from a broader perspective, especially on workers welfare and interest which has contributed significantly to the Keppel FELS Employees' Union's (KFEU) proactive approach in serving its members.

She strongly believes that sustainable wage increases would result in increased productivity and reduced turnover for the company, and that it would motivate workers as they would be less inclined to search for higher paying jobs.

This led to her involvement in negotiating for better remuneration packages for workers, including the formulation and push for better terms and conditions in her company's collective agreement.

Sister Rayjina has, through her work and as a union leader, helped her company and members overcome difficult times – especially during negotiations for better remuneration packages during retrenchment exercises.

She strongly supports KFEU's strategies to recruit, retain and build relationships with members and is consistently coming up with new ideas and new strategies on how to recruit and retain new members.

Passionate about her work, she possesses a positive attitude and she is one who leads by example and is always ready to adapt to changes while upgrading herself.

A strong believer in lifelong learning, she actively promotes skills upgrading and training to enable one to achieve better wages and prospects.
