### **Steven Chua Loh Yong**

Vice-President

National Taxi Association (NTA)

*Nominated by the National Taxi Association*

Steven Chua Loh Yong demonstrates unwavering dedication and service to his members. A firm leader with a heart of gold, he is unafraid to speak up when issues are misaligned or inaccurate. For instance, he inquired with management about the necessity of raising fuel prices, regardless of the decisions made by market leaders to increase their rates first.

Brother Steven is always present at his branch, even on non-duty days, to support his Executive Committee leaders when they require guidance. He strives to be the first point of support for members seeking advice on various issues ranging from industry matters to NTUC schemes, including assisting with hardship grant applications. He also actively encourages and informs his fellow leaders and drivers about new opportunities that could benefit them, such as high traffic locations or expected passenger surges. His strong relationship with members has helped maintain membership numbers.

As a representative of the National Taxi Association in the NTUC Land Connectivity Cluster, he regularly shares constructive feedback during meetings, demonstrating his commitment to serving his fellow drivers effectively.
