

MODEL WORKER

Sivamani Taigrajan

Chief Security Officer

Focus Security Services Pte Ltd

Nominated by the Union of Security Employees

Sivamani Taigrajan has been in the security industry for over a decade. Since the Progressive Wage Model launch in September 2016, she has risen through the ranks over the years through determination and a commitment to lifelong learning.

Currently, Sister Sivamani holds the highest rank of chief security officer. She is truly an inspiration to other women in the industry. Her participation in NTUC U Women and Family has developed her confidence over the years and in return, attempts to reach out to female officers in the industry through engagement sessions such as baking classes.

Sister Sivamani also recently graduated in 2022 from NTUC Union Leadership Programme for Women, which further certifies her commitment to empower female officers to be workforce ready. Her personal contribution to union matters also surpasses expectations, where she handles grievances from officers, particularly female officers, and mediates such issues. She continues to inspire fellow workers to upskill and reinvent themselves for the challenges of the industry that is currently going through a digital transformation.
