# CA SIGNING 2008

CA Signing Ceremony Commences

Welcoming our Chairman Choo Chiau Beng

Dialogue session with Chairman

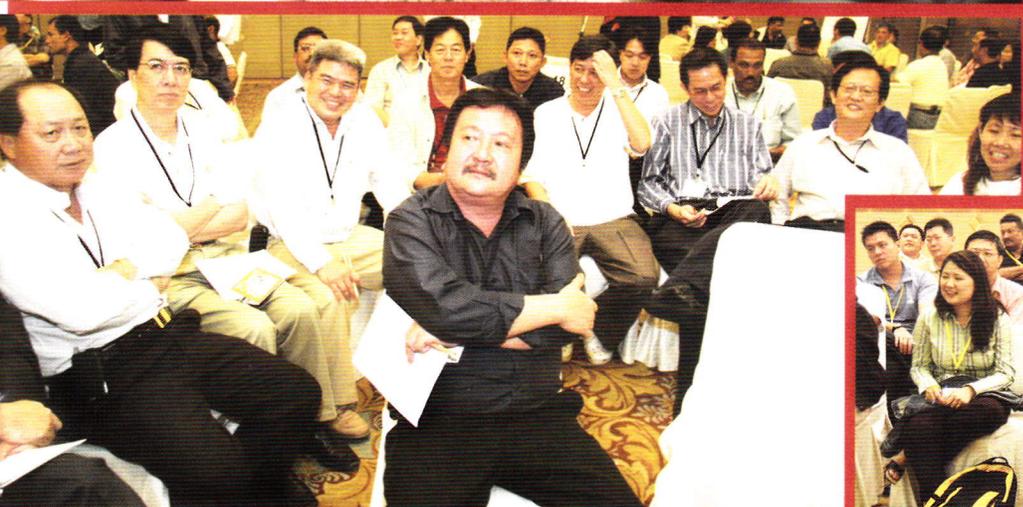

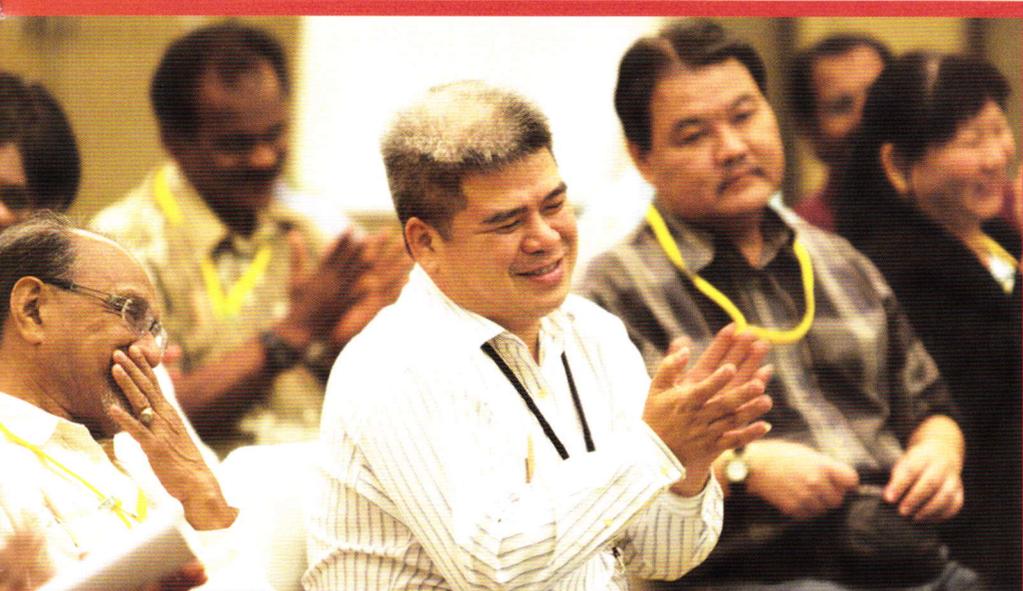

# SRCEU LM2011 Commitments

SRCEU is committed to the Labour Movement's vision of LM 2011. Having set its key targets on achieving higher membership rate by year 2009. SRCEU even tried reaching out to members' family and management staff to join as union members in a bid to fulfill the membership target of Labour movement. In 2007 and 2008, SRCEU organized National Day Observance Ceremonies cum family event; reaching out to members' children to join as NEBO members, and spouse to join as union members. The exercises were very successful with considerable number of sign-ups.

Re-employed workers who are on Post Retirement Contract (PRC) basis would be able to join as Ordinary Members. SRCEU are able to represent such workers under limited representations. The immediate task for SRCEU is to encourage re-employed workers to continue their union membership so that their interests can be looked after. Workers who decided to retire can now enjoy a new chapter of their lives with U LIVE Community

so as to continue enjoying an active aging lifestyle. The unionization rate of re-employed contract workers is at 100 percent currently. Our Executive Committee member Brother Yeo Hock Hin is appointed as a committee member of Silver Collar Working Committee at NTUC. His task is to promote and reach out to Silver Collar workers, identify and deliver programmes in accordance to their needs.

Another focus of LM 2011 is Gold Collar workers which SRCEU has 70 percent membership for executives under limited representation. SRCEU has been actively reaching out to these members to understand their needs and how the SRCEU could improve their lives. We aim to achieve 100 percent membership eventually. SRCEU endeavors to work hand in hand with the Management to ensure that employees in SRC can fully enjoy the range of benefit offered to union members.

Ushering in the New Era of Bi-Partism

I got the lucky number 8!

All eyes glued to the performance.

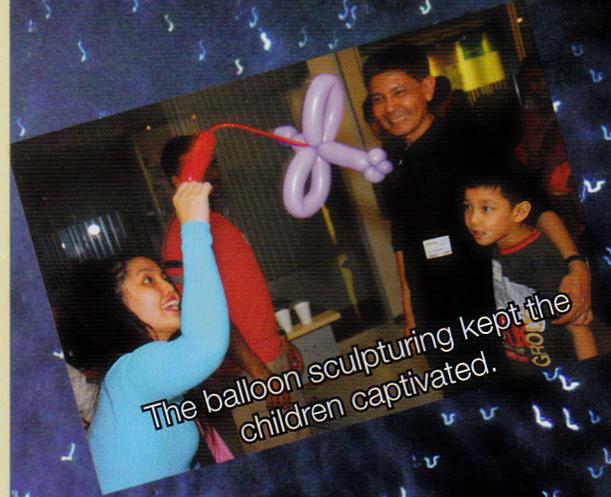

# SRCEU National Day Observance 2008

SRCEU celebrated our Nation's birthday in style by holding our National Day Observance Ceremony cum Family gathering in 2007 at the NTUC Centre. Management and members from SRCEU as well as our brothers and sisters from the OPEC Cluster participated. Overlooking the floating platform from NTUC Centre the highlight of the evening was without a doubt, the spectacular firework display that left everyone awestruck.

The event was such a success that it was held again the following year 2008.

Many exciting activities were planned for every single member of the family, even Grandpa wasn't left out! Caricature drawings kept both the young and old captivated, while the ladies had a glorious time trying out the Henna painting. Children were clamoring around the balloon sculpture booth with the professionals, creating balloon sculptures ranging from the simplest of a poodle to the most complicated of machine guns. One of the more popular booths was the hand phone charm booth. Assistants at the hand phone charm booth were working non-stop having to deal with the endless orders from people who wanted to have their own personalized hand phone charm.

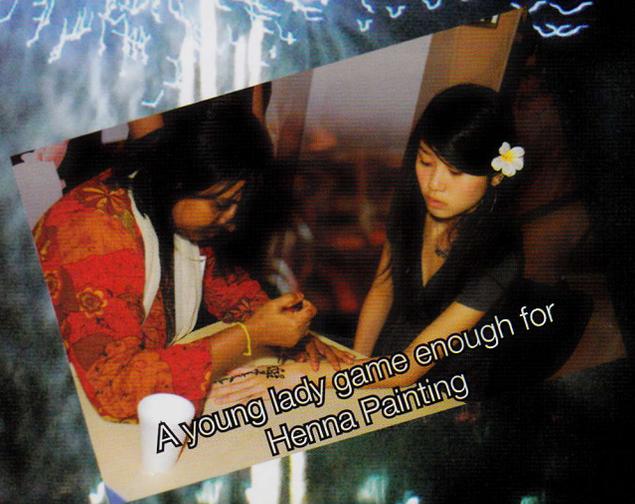

With the support given by the members, SRCEU managed to recruit their families (including their spouses and children) to join the union. As planned, the union's mission on an all inclusive SRCEU for everyone was very successful. Special thanks to NEBO, who set up a booth at the event which managed to recruit young members to join the union. Due to overwhelming response, SRCEU has decided that this event would be on a yearly basis, for as far as an appropriate venue is available.

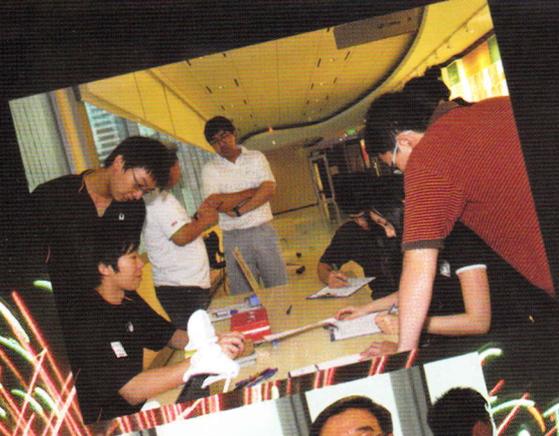

The balloon sculpturing kept the children captivated.

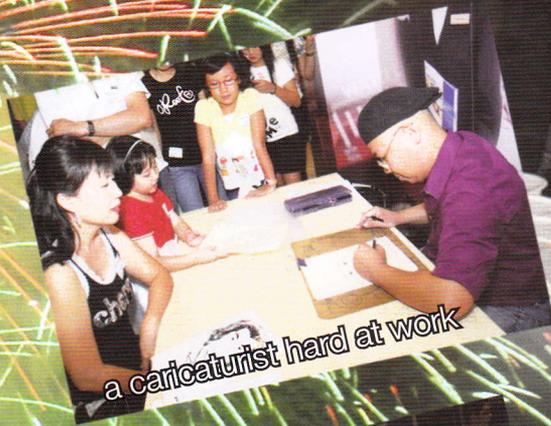

Trying to get a better view of the parade.

A young lady game enough for Henna Painting

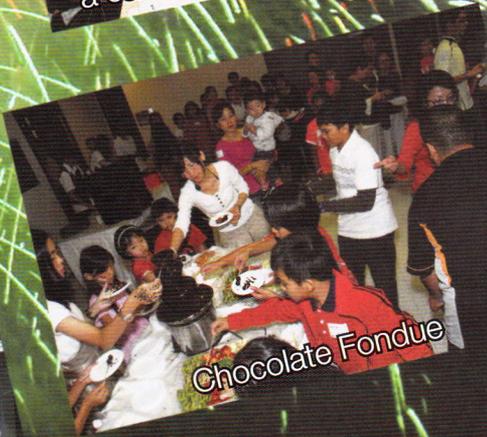

Mr. James Er, CEO of SRC together with his family
