

PARTNER OF LABOUR MOVEMENT

HealthServe Ltd

Nominated by the Migrant Workers' Centre.

HealthServe Ltd is a vital partner of the Migrant Workers' Centre (MWC), particularly in fostering mental and emotional well-being among migrant workers (MWs) in Singapore. Through collaborative efforts, HealthServe actively engages MWs in education and awareness initiatives regarding mental health and related issues.

HealthServe Ltd is a cornerstone partner in the MigrantWell Singapore's care programme, a joint endeavour to provide subsidised dental care and services to MWs at an affordable \$15 per visit. This initiative underscores HealthServe Ltd's commitment to addressing the healthcare needs of MWs within the community.

In addition, HealthServe Ltd has contributed significantly to MWC's efforts to empower MWs during the COVID-19 pandemic. Through initiatives such as Project Dawn and Project Staysafe, in collaboration with ACE, Temasek Foundation and NUS, HealthServe Ltd has trained MWC ambassadors to become Peer Support Leaders. These leaders are crucial in identifying and assisting distressed workers in dormitories, providing much-needed support during challenging times.

Beyond specific programs, HealthServe Ltd demonstrates unwavering support by actively participating in MWC events, programs, and functions held at dormitories. Their involvement includes delivering mental health talks, conducting health screenings, organising exercise routines, and promoting healthy eating habits. These activities significantly enhance the overall well-being and quality of life for MWs.

Moreover, HealthServe Ltd works closely with MWC to provide counselling and mental health programs for distressed shelter boys, offering practical and supportive interventions. This collaboration has proven instrumental in aiding shelter workers and facilitating the resolution of their issues in partnership with the Ministry of Manpower and MWC.

Overall, HealthServe Ltd's dedication and partnership with MWC exemplify a shared commitment to enhancing the welfare and holistic health of migrant workers in Singapore.
