

## MODEL WORKER

### Gerald Hoe King Wei

Senior Engineer (IT)  
NOK Asia Company Pte Ltd

*Nominated by the Advanced Manufacturing Employees' Union.*

Gerald Hoe King Wei is pivotal in NOK Asia Company's digitalisation journey. As part of the project team developing an Information Management System for IT equipment, he collaborates closely with users across the company to discuss roadmaps, plans, requirements, and execution. The implemented system efficiently tracks IT inventory, ledgers, and contract renewals, reducing manual tracking hours and enabling focus on higher-value tasks, enhancing work-life balance. The company benefits from a more timely and accurate inventory system and a more efficient workforce.

Brother Gerald also invests time in external courses, such as cybersecurity, improving network communication management and mitigating cyber threats for the company.

As the union Branch Chairman, he fosters industrial harmony among colleagues through regular engagement and festive gatherings. He embodies a positive learning attitude and spirit of contribution.
